RAPPER'S DELIGHT BY GENRE

The mission of Genre Hotels is to explore the development and creation of the music that paved the way, in order to encourage to new generation of musicians that will walk it. Rapper's Delight focuses on the genre of Hip-Hop and the culture that led to it as well as pushed it into becoming one of the most popular contemporary styles of music today. Located in the heart of Hip-Hop's origin, New York City, Rapper's Delight boasts 5 stories with 150 rooms for a personalized experience and plenty of space. The open concept with steel and glass framing and rooftop bar invites the city into the hotel to create an interconnected stay within the genre. Facing the East River and Financial District, enjoy beautiful views of the city and amazing sunsets over the Statue of Liberty. The overall branding and interior design has a bright color scheme and graphic art that pays a simplistic homage to the funk and soul music that brought about Hip-Hop, as well as the key components to the sound, such as decorations reminiscent of its OG record labels. We've developed a handcrafted adventure that unites music makers and music lovers alike. We've split up music into four dimensions: Creation, Exploration, Collaboration, Exhibition. This allows for a unique stay for every guest, no matter where they are in their musical journey. Each suite type and amenity ties in with it's dimension; for example, under Collaboration, we encourage staying with your entourage in the EBR Double Suite and hitting up the in-house recording studios, Smash Records. Freedom to intermingle within the dimensions and carve your own path gives every guest the chance for a curated experience. Our other amenities including our extensive collection of music and equipment and spacious music venue, boost the development of your sound, or encourage relaxation with our rooftop bar and 24 hour room service. With a rolling lineup of musical performances from local and famous artists alike, the Beat Bop Bar's stage or the Get Up venue will always have something going on to be excited for. With humor and reverence, Rapper's Delight by Genre hotels celebrates the creativity and perspective of one of the most popular genres and reimagines it to guide every guest's passion for music. Here's to the beginning of your musical journey.
